

\$TIM (Time Is Money) - Technical Whitepaper

Abstract: \$TIM is a digital asset whose unit of account is one minute of verifiable computational time, benchmarked to Bitcoin value.

Mathematical formulation:

$$N_SRC = P_BTC / P_SRC$$

$$T_total = N_SRC / R_SRC = P_BTC / (R_SRC * P_SRC)$$

$$P_TIM = (1 / T_total) * P_BTC = R_SRC * P_SRC$$

$$\text{Default } R_SRC = 2774.96 \text{ SRC per minute}$$

Wrappers: 1 TIM (1 min), 10 TIM (nano-future), 100 TIM (block).

Phase 1 is an informational showcase. Not an offer to sell securities.
